

**Varo Business Alliance  
Donation Opportunities**

## About

VBA stands for Varo Business Alliance. It is a global networking organization that provide events, community and learning opportunities for business professionals to network, learn and grow their business.

Thank you for choosing to donate.

**EVERY** donation, no matter how modest, has the remarkable power to create a ripple effect of change.

Your gift today is an investment in VBA programs helping business enthusiasts in Missouri and across the U.S. — from delivering one-of-a-kind networking experiences and book scholarships for college students, to matching college students with business professionals for mentoring and industry field trips through our VBAU memberships.
